A Swim Australia™ Teacher has the competence and knowledge to teach swimming and water safety to independent learners in groups of varying sizes. Students of this course will gain a Statement of Attainment with the competence required to deliver GST free, water-related personal safety and survival lessons.

The most popular course is the Swim Australia™ Teacher accreditation. This accreditation is also a prerequisite for those wishing to gain specialised delivery until a competency assessment determines your required level.

As your confidence and ability grows, you will progressively become more involved in the lesson delivery under the supervision and direction of a lead teacher. You will receive feedback and will be able to attend a practical session further along in your selected course which focuses on transitioning your induction to hands-on practical. Once the practical induction is complete, you will undertake the job of a lead teacher.

If you respond incorrectly, you will receive instant feedback and will be able to attend a practical session further along in your selected course which focuses on transitioning your induction to hands-on practical. Once the practical induction is complete, you will undertake the job of a lead teacher.

All entry level courses feature a best practice blended delivery technique. You will be provided with an online logbook enabling you to undertake self-paced theory study. The theory features text with colour photos, videos and graphs for each unit of study. Upon completion of each unit, a series of randomised questions will be asked.

The course is endorsed by the peak sporting body in Australia for swimming, Swim Australia, as an entry level course of the swimming coaching accreditation pathway. This course is designed to develop the skills needed to transition into competition. The course is endorsed by the peak sporting body in Australia for swimming, Swim Australia, as an entry level course of the swimming coaching accreditation pathway. This course is designed to develop the skills needed to transition into competition.

The Swim Australia™ Teacher of Competitive Swimming (CS) has the competence to deliver basic swimming and water safety skills to novices, those who are recent ‘learn to swim’ graduates and in the likes of a mini squad around 10 years and over.

The Swim Australia™ Teacher of Learners with a Disability (LWD) focuses on the skills you will need to teach learners with a range of physical, emotional, intellectual and intellectual disabilities safely and effectively.

The Swim Australia™ Teacher of Learners with a Disability (LWD) focuses on the skills you will need to teach learners with a range of physical, emotional, intellectual and intellectual disabilities safely and effectively.

The Swim Australia™ Teacher of Learners with a Disability (LWD) focuses on the skills you will need to teach learners with a range of physical, emotional, intellectual and intellectual disabilities safely and effectively.

Gain the knowledge, skills and better equip you to effectively deliver swimming and water safety education to all members of the community.

It is also one way to renew your SAT accreditations for a further four years via our re-accreditation process. Gaining another SAT accreditation for a further four years via our re-accreditation process.

Would you like to share some of the joy that many others are already experiencing in their work?

The first step and enrol in one of the Australian Swimming Coaches and Teachers Association’s (ASCTA) nationally accredited Swim Australia™ Teacher accredited training courses.
